

To: Whom It May Concern

Dear Sir:

This letter is to attest to the life and ministry of Mr. Charlie Thompson. As a member and volunteer worker for 18 years in one of the largest churches in New Jersey, Faith Fellowship Ministries World Outreach Center, Sayreville, NJ; I can truly affirm to the integral and spiritual lifestyle of Mr. Thompson and the tremendous contributions he has made in the lives of many through personal counseling, community outreach and organizational growth. His life is a living testament of God's power to literally change and transform the heart of man through discipleship of knowing Jesus Christ as Lord and Savior. He is well known for his sensitive approach to serve and specifically meet the physical, spiritual and financial needs of the drug-addicted and is clairvoyant in his ability to communicate that vision to others.

The Lord has opened a door of effectual ministry for Mr. Thompson to establish the first Christian home for rehabilitation in central Newark, NJ. This home will be a place where the impoverished and substance-abusers can come to physically heal with programs specifically designed for them to share and experience an encounter of God's presence through worship and biblical teaching. Currently, under Mr. Thompson's administration there are three vans which passenger these people from detox to rehab centers and church services several times per week. I have had many opportunities assisting Mr. Thompson on the road in community outreach and, I must say, the influx of phone calls being handled by him alone is extraordinary. I have met with many of the people he has influenced and I can honestly say they are not the same; many are now employed, back in school and reconciled with their families because of his tenaciousness as a visionary to see them "not as they were" but as "whom they would become." He has been recognized and networked with various directors and head administrators of detox and rehabilitation centers throughout New York and New Jersey. To date, this ministry continues to grow at an accelerated and tremendous rate in conjunction with Mr. Thompson's personal responsibilities in managing a full-time business.

I am confident to recommend Mr. Thompson for service at any realm where the needs of people are involved. He is a man of tremendous compassion and utmost integrity. The power of God working in his life reaches into your soul and spirit and ministers to you in a way that is definitely tangible. His message is one of love, healing, restoration and salvation for everyone! He continues to communicate this hope of God's love by gently challenging the heart of mankind to receive by faith the same power that has personally impacted and transformed his own life.

If I may be of further assistance to attest to the character of Mr. Charlie Thompson please feel free to contact me at 732-904-7484 or my email: jehovahsinger@aol.com.

Respectfully Submitted,

Sandra H. Ward
